## PROFESSIONAL EXPERIENCE

---

### CareerFoundry

Denver, CO

Full stack Web Developer

Oct. 2022 - Present

- Defined the data format for requests and responses, using JSON , as well as the URL structure that clients will use to access the API's resources, each resource has a unique and descriptive URL, determined the purpose of the API.
- Created routes and handlers for each resource endpoint. The handlers define how the API responds to various HTTP methods (GET, POST, PUT, DELETE) for each resource, implemented business logic to handle CRUD operations.
- Implemented a secure authentication mechanism OAuth, JWT to verify the identity of clients, set up authorization rules to control which clients have access to specific resources and actions, defined error handling mechanisms.
- Made HTTP requests to fetch data from backend APIs, used Axios to fetch API for data retrieval, managed data received from API responses as well as implemented data validation, transformation, and error handling.

### Front Web Developer

Remote

Self-employed

Apr. 2020 - Present

- Developed and integrated interactive and dynamic features using JavaScript, libraries, and frameworks like React, Angular, or Vue.js, implemented responsive design principles to ensure websites adapt to various screen sizes.
- Write clean, semantic HTML and CSS code to structure and style web content, ensured cross-browser compatibility and responsiveness for various devices and screen sizes, created and maintained software documentation.
- Communicated with clients to understand their requirements, provided updates on project progress, and offer technical guidance, seeing through a project from conception to finished product, designed user interactions.

### Vibe coffee & wine

Denver, CO

Head Bartender

Oct. 2022 - Oct. 2023

- Prepared a wide range of alcoholic and non-alcoholic beverages, including spirits, beers, wines, and specialty drinks, contributed to the creation and development of the bar's drink menu, suggesting new and innovative cocktails.
- Interact with customers, taking orders, making recommendations, and providing a high level of customer service.

### DeStefano's Steakhouse

Brooklyn, NY

Bar Manager

Apr. 2020 - Sep. 2022

- Led and managed a team of bartenders, servers, and support staff. This involved hiring, training, scheduling, and supervising employees to ensure smooth operations and implemented and upheld high service standards.
- Managed the bar's finances, monitoring expenses and reduce costs. Prepared and analyzed financial reports.

## EDUCATION

---

### CareerFoundry

Denver, CO

Full stack Developer Immersive Program

Oct. 2022 - Jul. 2023

- Created server-side application based on RESTful API, using MongoDB with React as a front side. Working with technologies as jQuery, AJAX, Bootstrap, MVC design patterns, and Heroku configuration. Integrated payment
- systems, implemented user authentication and authorization, and conducted testing with RSpec and FactoryGirl.
- Collaborated with fellow students on group projects, mirroring real-world development environments. This experience taught me how to work effectively in a team and use collaborative tools like Git and GitHub.
